ABOUT ME

Less than a year in the IT industry.

I took a course on Front-end development on the Codecademy platform. At the moment I am taking a marathon on Web Ui from SoftServe company. I am actively learning and developing in this direction. I am sure working in a team will give me a significant leap in my skills.

I have some experience in creating 3D models in Blender. Also took a course (Draft Punk) from XYZ School in this direction.
